DETAILED ACTION

1. This Office Action is the answer to the amendment received on 2/27/2004.
2. Claims 16-29 are pending in this application, new claims 23-29 are added.

Election/Restrictions

3. Restriction to one of the following inventions is required (35 U.S.C. 121)

There are 2 set of pending claims, Group I covers claims 16-22, and Group II covers claims 23-29.

A. Group I is directed to a computerized method for enabling a buyer to review inventory information, classified in class 705, subclass 26 (note that "how" those inventory information are transmitted are not in scope of these claims; therefore, differences in transmitting inventory information rates do not effect the steps of "enabling a buyer to review information").

B. Group II is directed to a computerized method for transmitting inventory information, classified in class 705, subclasses 22, 28.

The inventions are distinct, each from the other because of the following reasons:

- 4. Inventions I and II are related as processes for two separate applications; the above inventions are distinct, each from the other because inventions I, II contain different and unrelated inventions according to the preambles of claims 16 and 23, and as indicated by different field of US classification (inventions are unrelated if they have different functions, or different effects (MPEP 806.04, MPEP 808.01)). Because these inventions are distinct for the reasons given

above and the search required for Groups I is not required for Group II, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to CUONG H. NGUYEN whose number is 703-305-4553. The examiner can normally be reached on 7am-3:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's acting supervisor, JEFFREY A. SMITH can be reached on 703-308-3588. The fax phone number for the organization where this application or proceeding is assigned is 703-305-7687.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-746-5572.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system: Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
